Subject: Instrument move

Hi Jim,

I am trying to come out to see you on June15 with the mass spec. I guess you are getting a printer that has been here for a while too! I'll bring it.

I will confirm my trip out. Would you please send me the address of where you are and the names of people there I may need to get a hold of if you are not around.

Please let me know if this is a bad day.

Thanks Pete
